#### Kennedy Space Centre Bus Tour:

The bus tour allows you to enter the restricted areas of America's Spaceport where you can see the launch pads and iconic Vehicle Assembly Building along the way. As the bus drives through various areas, students can view the working spaceflight facilities that were launched to the moon and where NASA plans for launching astronauts into deep space. The bus tour will also help you to know about NASA's Commercial Crew and Cargo partners such as SpaceX, Boeing and United Launch Alliance (ULA) operate on Florida's Space Coast. The entire tour takes around 45 minutes and will conclude at Apollo/Saturn V Centre.

#### Kennedy Space Centre activities:

1. IMAX: There are two giant theatres where the dream of spaceflights comes alive to students with the wall of sound. Dramatic footage shot by NASA astronauts during actual missions allow students to feel like they're floating alongside them.

2. SPACE SHUTTLE ATLANTIS: you can get up-close view of Atlantis, the only space shuttle displayed in flight. Space Shuttle Atlantis also includes many interactive exhibits celebrating the history, technology and impact of NASA's Space Shuttle Program.

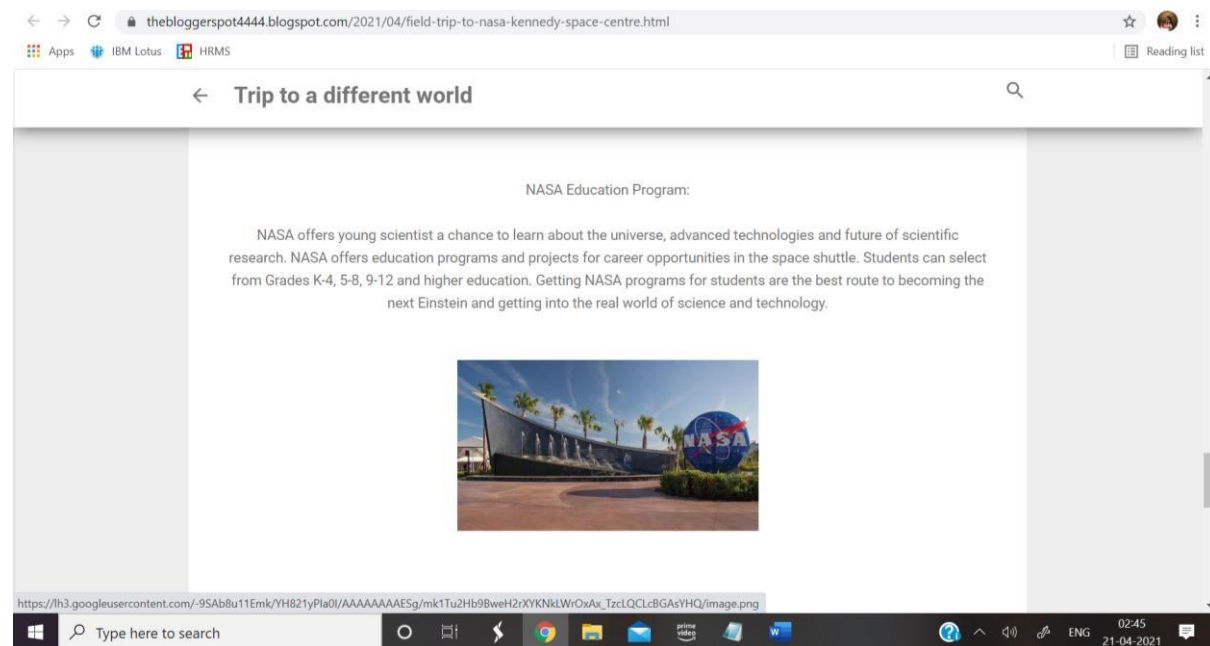

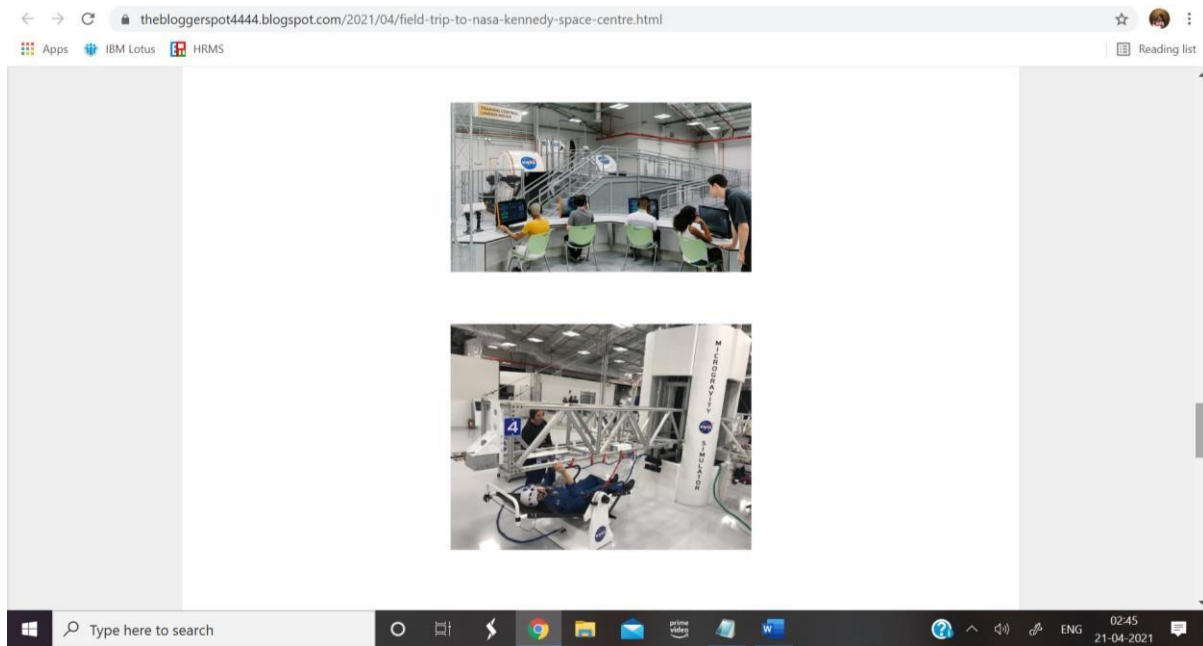

## ← Trip to a different world 🔍

3. SHUTTLE LAUNCH EXPERIENCE: you get to experience how the shuttle launch works by giving commands by yourself from command centre or from shuttle cabin. this is one of the best experience on student can have.

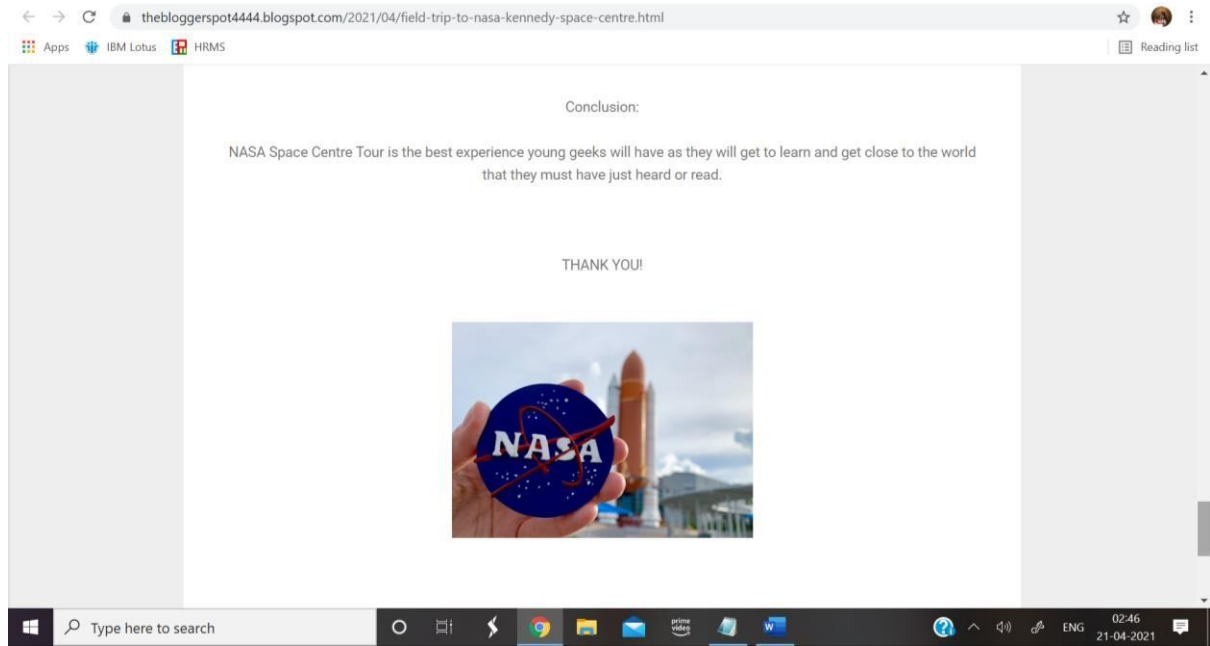

4. VR SET AND REPAIRING SPACE SHUTTLE EXPERIENCE: Students also get to experience VR set control and command with some general task done on moon and space. Repairing a outside part of a space shuttle, you have to do some task with some space equipment which makes you feel like you are really in the space.
